RE: Ravelin3D

Daniel and Anna at Ravelin3d provided incredibly prompt and professional rendering services for a view of a building (currently buried under scaffolding) in lower Manhattan. We provided bare-bones support materials - some google streetview images plus a low-res PDF of the facade our client needed to visualize - and Ravelin3d quickly turned around a great-looking image, incorporating much of the neighboring buildings as well for convincing context. Communications were prompt and clear. We look forward to opportunities to work with Ravelin3d again in the future!
